

## INSTRUCTIONS FOR MANUSCRIPT PREPARATION

**Software and format:** Microsoft Word 6.0 is preferred. Do not use desktop publishing software such as Aldus PageMaker or Quark XPress. If you have prepared your manuscript with one of these programs, export the text to a word processing format. Please do not deliver files that contain hidden text: for example, do not use your word processor's automated features to create footnotes or reference lists.

**File names:** Name each file with your last name.

**Labels:** Label all disks with your name, the name, the file name, and the word processing program and version used.

**Page setup and paper format.** Papers should be typed double spaced with ample margin. The page setup is ( B5 ) 182 X 257mm. Papers should have the following sections

1. Title of the paper
2. Name of the author(s) with initials and the name and address of the institution where the work was done must be given. Present address(es) of author(s) may be given if they are different from the above.
3. Abstracts: All papers must have an abstract of not more than 200 words of the significant results reported in the paper. Presentation of numerical results should be avoided as far as possible in the abstract.
4. Key words: Between 3 and 6 key words must be provided for the purpose of indexing and information retrieval.
5. Text: The paper must be divided into sections starting preferably with '**Introduction**' and ending with '**Conclusions**'.
6. **References:** All the references must be in the following order.

1 Bhat M V, Ravindranathan M S and Rao G V J. *Org. Chem.* 1984, **49**, 3170.

2 Gould E S, Mechanism and Structure in Organic Chemistry; Holt Riehart and Winston:New York, 1964, 181.

3 Slothers J B, Carbon-13 NMR Spectroscopy; 2nd ed.; Searle, C. E., Ed.; ACS Monograph 182; American Chemical Society: Washington, DC, 1984; Vol. 2, Chapter

**Style:** Articles must be written in MS Word and viewable without errors using the latest officially-released version of Microsoft corporation. Other files will not be accepted. Articles may be one large file, or broken into many files.

**Tables:** Tables should be prepared using MS Word or Excel Tables should be numbered sequentially as they appear, *i.e.* Table 1, Table 2, etc.

**Figures:** Figures may be included within the body of the manuscript or may be submitted as a separate (\*.xls) file. Figures should be numbered sequentially as they appear, *i.e.* Figure 1, Figure 2, etc., and a caption should appear directly below each figure. Figures may be \*.xls, GIF or JPEG format.

**Mathematical Equations:** Authors may create their mathematical equations by using equation editor or may be prepared by their choice and then save the equation as an image, either as a gif or jpeg file. These files should then be embedded within the text in an appropriate location.

**Spectra :**IR and NMR Spectra should be submitted in the JPEG or GIF format,

## **IMPORTANT**

1. The Articles should be brief, clear and to the point, avoiding unnecessary historical background. Authors should cover their subjects with reasonable thoroughness and completeness. The articles should be reasonably subdivided into sections, and if necessary, into subsections. All articles are subjected to critical reviews by referees.
2. A short summary (maximum length 300 words) is required. The abstracts should be consist of a summary of the entire paper. It should not present the conclusion alone.
3. The length of the article, including tables, figures, and the text must not exceed 2000 words.
4. The authors should assign numbers and titles to all the tables. All the table columns should have explanatory headings.
5. The text should be in MS Word format (\*.doc ).
6. The figures should be in GIF, TIF or Excel format and may be embedded in text.
7. All the color figures will be reproduced in full color free of cost in the online edition of the journal.
8. The papers must normally present the results of the original work. The Critical reviews of important fields will also be considered for publication.
9. The submission of the script will be taken to imply that it has not been previously published and that it is not under consideration for publication elsewhere. If the scripts are accepted for publication, the author should not publish it elsewhere.
10. The articles should be submitted electronically in the form of a floppy diskette or CD. Submission through e-mail is preferable.
11. All contacts shall be by e-mail. All the authors should have an e-mail id.
12. The manuscripts on CD (or) floppy diskette may be sent by post to the editorial office at the following address:  
**Dr. N.A.Mohamed Farook,**  
**E-Journal of Chemistry,**  
**Khadir Building,**  
**Near Shifa Hospital,**  
**Adirampattinam-614701,**  
**INDIA.**
13. The e-mail id for submission of articles as an attached file is **mofasham@yahoo.com**
14. **Reprints may be downloaded directly from the website**
15. Those who are submitting their manuscripts are requested to send one printed copy each (for office reference) along with the publication agreement which is available in the website.
16. The responsibility of the contents rests upon the authors and not upon the publisher.
17. The Editorial Board reserves the right to make changes if necessary in the research articles.
18. **Authors are requested to prepare the manuscript according to E-J.Chem. guidelines**
19. All the articles may preferably be submitted through our online manuscript submission central in the following URL.  
<http://www.ejchem.org>
